---

Action: Delete course with FK links.

Expected: SQL error (blocked).

Result: PASS.

---

3. OVERALL TEST SUMMARY

---

Total Tests Run: 18

Tests Passed: 18

Tests Failed: 0

All core ERP functions:

- Login system
- Role-based dashboard
- Course CRUD
- Student registration system
- Deadline enforcement
- Maintenance mode propagation

- Synchronization between dashboards
- SQL integrity checks

…performed exactly as expected.

The system is stable, role-secure, and fully synchronized with the SQL backend.
